NEWS RELEASE

MERIDIAN MANUFACTURING LAUNCHES AERATION FAN PRODUCT LINE

October 15, 2016 - Meridian Manufacturing unveiled an all-new lineup of Aeration Fans during a trade show in Saskatoon, Saskatchewan.

In keeping with the company's focus on innovative technology and strategic relationships, Meridian's bin aeration experts partnered with S3 Blowers, a 50-year-old business providing custom pneumatic systems for the farm equipment industry. This collaboration introduces advanced aeration fan design and efficiency to the market place.

Attending the exhibition to support the Meridian sales team, S3 Blowers' General Manager Al Marques reported a strong response to the product launch, "Buyers were impressed with the quality and efficiency provided by the new fans, and felt they were a terrific complement to the Meridian storage products. We were pleased to see that the product really created excitement amongst the buyers."

For decades, Meridian Manufacturing has been an industry leader in commodity handling and storage products for the agricultural industry. For more information about the company and its extensive line of products, visit the Meridian team at November 9-12th during the Agri-Trade Show in Red Deer, Alberta, and see the company online at www.meridianmfg.com.
