NEWS RELEASE  
February 17, 2017

## S3 DELTA SPREADERS DEBUT

January 27<sup>th</sup>, 2017 – S3 Delta Harrows debuted a new line of broadcast spreaders at the Black Hills Stock Show in Rapid City, SD.

Director of Business Development, Ida Van Scyoc says, “Land owners look for easy-to-use, low cost, and efficient ways to improve their yards, fields and pastures. Spreading seed or fertilizer at the same time as you are aerating and dethatching with the harrows just makes sense.”

The spreaders feature mounting kits that work alone or with the Delta Harrows, and accommodate ATV’s, 3-point hitches, or S3 Delta carts. Product offering includes two hopper sizes, the option to add a deflector for enhanced control, remote on/off switch, and adjustable spread.

S3 Delta Harrows in Shenandoah, Iowa, is part of the S3 group of companies founded in 1966 to provide solutions to the farm equipment industry. For more about the company or their new line of broadcast spreaders, visit [www.S3deltaharrows.com](http://www.S3deltaharrows.com), or call 877-874-3020.
